Sophisticated Renovation

By Anita McLean

This Jupiter 9000 square foot retreat is an airy waterfront residence that embodies the client's inherent connection to nature with a balance of comfort and sophistication. The goal was to create a seamless transition between the interiors and outdoor living. The home was brought into the 21st century, blending modern with classic contemporary design. Cyrilla Home provided a turnkey service for this project, which included both form and function.

Kitchen cabinetry and Island by Poggenpohl, with motorized hardware cabinetry. Backsplash is a crackled handmade ceramic tile "Ekto" from AKDO. Kitchen counters are porcelain; the slim profile chosen to compliment the sleekness of the cabinetry and to offset the profile of the island. Flooring is porcelain from Italy with a bleached wood look, "Mansion" by AKDO.

In the living room, the previous owners had a Henry Russo painting recreated onto the wall as a mural. This design element was left intact and became the inspiration piece for the décor. Sofas and chairs by Wesley Hall, print ottoman style coffee table: fabric by Schumacher, piece by Mr. & Mrs. Howard for Sherill Furniture.

In the original home, the dining room was just off the front door. Cyrilla relocated the bar to this room, and the dining area is now located where a bar use to stand. She wanted to create a focal point and introduce another color that worked with the mural. Barstools by Interlude Home, bronze sparkle wallpaper by Phillip Jeffries ties in with the bar hardware. The counter, island waterfall and wall treatment are all Cultiva Azul Macauba Porcelain slabs.

“Our Passion is boundless enthusiasm, fervor to create something that resonates and communicates to our clients,”

—Cryilla Yanez.

In the family room, the fireplace wall was recreated with a contemporary gas fire insert and book matched porcelain slabs. Ceiling is pecky cypress. Sofas, chair & ottoman are Wesley Hall. Bookshelves by Eloquence. Local artist Julie Silk Beaumont (Tequesta) created the blue painting.

Powder room counter is Azul Macuabas natural marble. Walls are hand painted by Julie Silk Beaumont. Custom cabinetry by Monte Cristos of England.

The master bedroom suite entrance showcases fine artwork they have collected. Ship lap adds a nod to our coastal lifestyle. Bedding by Matouk, chaise by Mr. & Mrs Howard, King bed by Caracole and side tables by E.J. Victor

Cyrilla Home is a bespoke design company based in New York and Palm Beach County. Cyrilla Yanez established the design atelier in 2005 to provide personalized hands-on design services for commercial and residential clients
